OIL STOVES

BELFORT 5KW

The Belfort 5kW Oil Stove shares the same design as the multi-fuel model. An oil stove is a popular choice for people living in rural areas without a gas connection, who would like the convenience of not keeping a stock of wood or solid fuel for a multi-fuel appliance. With a heat output of 5kW, this little stove is capable of providing gentle background heat or transforming the coldest of rooms to temperatures of tropical splendour at the turn of a button. It's electric push button ignition makes the lighting almost effortless, and should the power fail can be lit manually. A top or rear flue outlet provides two installation options.

FEATURES

- All Cast Iron construction
- Patented «Double Wall» Vaporising Burner System designed to give Maximum Efficiency
- Top or Rear flue outlet
- Matt Anthracite paint finish
- Comes with a Cast Iron Plinth in matching finish
- Comes with Electric Ignition as Standard
- Low Running Costs

SAVOIE 8KW

The Savoie 8kW Oil Stove shares the same design as the multi-fuel model. It's electric push button ignition makes it easy to light and the control button allows you to adjust the heat output to suit your requirements. The heat output of 8kW is ideal for medium to large sized rooms and will keep your home warm during the coldest months of the year. The large ceramic glass door panel allows you to enjoy views to maximum effect. A top or rear flue outlet provides two installation options.

FEATURES

- All Cast Iron construction
- Patented «Double Wall» Vaporising Burner System designed to give maximum efficiency
- Top or Rear flue outlet
- Matt Anthracite paint finish
- Comes with a Cast Iron Plinth in Matching Finish
- Comes with Electronic Ignition as Standard
- Low Running Costs

BOURGOGNE 10KW

The Bourgoigne 10kW is a large oil stove with a substantial ceramic glass door for perfect views of the flames. In addition this appliance has a reflective surface within the combustion chamber to enhance the appearance of the fire. The Bourgoigne also comes with a lift up cast iron lid revealing a steel cooking hot plate, ideal for some traditional home cooking. The special double wall vapourising burner ensures maximum economy with low running costs without the need for any electricity input.

FEATURES

- All Cast Iron construction
- Patented «Double Wall» Vaporising Burner System designed to give maximum efficiency
- Optional automatic ignition system (requires mains electricity supply)
- Rear flue outlet only
- Matt Anthracite paint finish
- Comes with a Cast Iron Plinth in matching finish
- Low running costs
- Available with hot plate

HORIZON 7 7.5KW

The Horizon 7 is a state-of-the-art oil stove complete with traditional aesthetics. Its narrow size allows the stove to sit comfortably on an 18" hearth. Equipped with an optional electric ignitor, the Horizon 7 is simple to start and manage. If you are looking for a stove but don't want the hassle of lumbering and storing solid fuel, the Horizon 7 is for you.

FEATURES

- All Cast Iron construction
- Patented «Double Wall» Vaporising Burner System designed to give maximum efficiency
- Top or Rear flue outlet
- Matt Anthracite paint finish
- Comes standard with electric ignition
- Low running costs
- Available with hot plate
- Sits comfortably on an 18" hearth

ZENITH 7KW

The Franco Belge Zenith is a modern take of an oil stove. Its narrow size allows the stove to sit comfortably on an 18" hearth. Its clean and square construction ensures it is not out of place, but acts as a focal point in a contemporary setting. With an output of 7kW, the Zenith is ideal for heating both small and medium sized rooms, keeping your home warm and cosy during the colder months of the year. With its generously sized window, you can clearly spectate the beautiful blue flames at work.

FEATURES

- All Cast Iron construction
- Realistic solid fuel effect fire & flame pattern available
- Patented «Double Wall» Vaporising Burner System designed to give maximum efficiency
- No electrical supply required for manual model
- Matt Anthracite paint finish
- Optional electric ignition available
- Available with or without Hot Plate

SOLID FUEL STOVES

BELFORT 5KW

The smallest stove in the Franco Belge range, the Belfort is one of our most popular appliances. Its compact size and low heat output of 5kW makes this appliance perfect for smaller rooms or a secondary heat source on those chilly winter days. The Belfort is available in matt black finish.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Powerful Airwash System for cleaner glass
- Ability to burn either wood or solid fuel
- External riddling grate
- Top or Rear flue outlet
- Heat output up to 5kW
- Ideal for heating small to medium sized rooms

MONTFORT CLASSIC 5KW

One of Franco Belge's best-selling stoves the Montfort Classic is the bigger sister to the Belfort. Its heat output of 5KW is the perfect size for medium sized rooms and can easily combat the cold weather. The Montfort Classic has a strong airwash system to help keep the glass clean and the wide door opening is perfect for fitting in those larger logs. The large ceramic glass provides excellent views of the flames for that cosy atmosphere.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Powerful Airwash System for cleaner glass
- Ability to burn either wood or solid fuel
- No additional room ventilation required
- External riddling grate
- Top or Rear flue outlet
- Retains heat long after the fire has expired
- Ideal for heating small to medium sized rooms

MONTFORT ELEGANCE 5KW

The Franco Belge Montfort Elegance takes all the great characteristics of the original and builds on this heritage to create an all new and individual stove. As a 'room-sealed' stove, the Montfort Elegance stove can draw its primary Air Supply from outside your home. With Vermiculite lining, powerful Airwash System to keep the large glass door panel clear of deposits and a heat output of up to 5kW, the Montfort Elegance is the ideal stove for bringing a warm glow to any family living room.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Ability to burn either wood or solid fuel
- Vermiculite lined for powerful combustion
- Powerful Airwash System for cleaner glass
- No additional room ventilation required
- Top or Rear flue outlet
- Retains heat long after the fire has expired
- Ideal for heating small to medium sized rooms
- External Air Supply

SAVOIE CLASSIC 6.5KW

FEATURES

The Savoy Classic is the bigger sister to the Montfort. The Savoy Classic benefits from having the largest ceramic glass door for a stove of its size, this provides excellent views of the fire. The Savoy Classic has an output of 6.5kW which makes it ideal for providing a substantial amount of heat in a variety of rooms. However due to its compact dimensions this appliance is suitable for a wide range of installations.

- All Cast Iron construction for maximum heat transfer
- Powerful Airwash System for cleaner glass
- Large ceramic glass door panel
- Ability to burn either wood or smokeless fuel
- Top or Rear flue outlet
- Retains heat long after the fire has expired
- Suited to a large range of rooms & installation options
- Also available with additional side loading door

SAVOIE ELEGANCE 8KW FEATURES

Following on from the great popularity of the Savoy Classic we proudly introduce a new model to the range - the Savoy Elegance. The raised features on the door and sides of the stove have been smoothed with only the outlines remaining for a touch of period style with a modern edge. The door is hinged on the side creating a larger expanse of glass for excellent views of the flames. This larger door also allows you to burn logs up to 42cm long.

The Savoy Elegance has a very powerful airwash which ensures the glass stays virtually free from soot and tar deposits. With a heat output of 8kW the Savoy Elegance is powerful enough to heat a wide variety of rooms. However its compact dimensions make it suitable for a wide range of installations.

- All Cast Iron construction for maximum heat transfer
- Ability to burn either wood or smokeless fuel
- The largest ceramic glass door panel for a stove of this size
- Vermiculite lining for greater efficiency & reduced harmful emissions
- Powerful Airwash System for cleaner glass
- Top or Rear flue outlet
- Retains heat long after the fire has expired

MONACO 8.5KW

One of our latest designs, the Monaco is justifiably popular and hailed as the new 'classic' due to its contemporary twist on the traditional Franco Belge period style. Equipped with a large expanse of glass which shows off the fire to full effect whilst a powerful airwash system ensures that the glass is kept as clear as possible. The Monaco is perfect for medium to large sized rooms, with a heat output of 8.5kW this stove will keep a house warm and cosy all winter.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Vermiculite lined for powerful combustion
- Large ceramic glass door for superb views of the fire
- Efficient Airwash system to keep the glass free from deposits
- Ability to burn either wood or smokeless fuel
- Top or Rear flue outlet
- Cast iron retains heat long after the fire has expired keeping your home warmer for longer
- Ideal for heating medium to large sized rooms

LIMOUSIN 10KW

The Limousin is one of the larger stoves in the Franco Belge range. The expansive glass door is kept virtually deposit free by a strong airwash system. An outstanding feature of this stove is the additional side loading door which will enable you to fit in logs of up to 50 cm in length to produce maximum usage from your wood stocks. The Limousin also comes with a lift up cast iron lid revealing a steel cooking hot plate, ideal for some traditional home cooking. The Limousin is ideal for larger rooms and for homes that require a substantial heat output.

FEATURES

- All Cast Iron construction for maximum heat transfer
- High 10kW output for heating larger rooms
- Powerful Airwash System for cleaner glass
- Ability to burn either wood or smokeless fuel
- Top Or Rear flue outlet
- Side loading door allows longer logs to be burned
- Available with integral steel cooking hot plate with lift up cast iron cover - perfect for simmering a casserole, or simply boiling the kettle.

BOURGOGNE 8.5KW

The Bourgogne is one of the larger stoves in the Franco Belge range. The expansive glass door is kept virtually deposit free by a strong airwash system. With an output of 8.5kW and the benefit of a powerful airwash you not only have a focal point in the room but a thoroughly reliable heat source. Furthermore, the vast firebox is designed to accept logs of up to 500mm long, so you do not need to load fuel so often!

FEATURES

- All Cast Iron construction for maximum heat transfer
- High 8.5kW output for heating larger rooms
- Powerful Airwash System for cleaner glass
- Ability to burn either wood or smokeless fuel
- Top Or Rear flue outlet
- Large ceramic glass door for superb views of the fire

WOOD BURNING STOVES

VICKY 5KW

One of the smaller stoves in the Franco Belge collection, the Franco Belge Vicky 5 is still capable of heating medium to large size rooms thanks to its 5kw heat output and 75.3% efficiency rating. With easily controlled primary and secondary air-wash features to help keep the window clean, the Vicky 5 is convenient and easy to maintain, so you can focus on enjoying the welcoming warmth this appliance has to offer. Featuring a traditional design and a black, cast-iron construction combined with a modern technical specification and large viewing glass the Franco Belge Vicky 5 harmonises traditional and contemporary design features to fit seamlessly into any design or style of room!

FEATURES

- All cast iron construction for maximum heat transfer
- Large ceramic glass door for superb views of the fire
- Efficient Airwash System to keep the glass free from deposits
- Top or Rear flue outlet
- Cast iron retains heat long after the fire has expired keeping your home warmer for longer
- Ideal for heating medium to large rooms
- Cleanburn Technology
- External Air Supply

MONTE CARLO 12.3KW

The Monte Carlo is a real power-house stove with an impressive 12.3kW of heat output, enough to keep even larger rooms beautifully warm. The massive glass door, with a powerful airwash system to keep it clean, affords a stunning view of the fire. With both front and side loading doors, the Monte Carlo can accept logs up to 55cm long, this larger log size means the stove can burn for longer periods with less refuelling required. Available in traditional matt black, this is a stove designed to create a centrepiece in even the most imposing of rooms.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Powerful Airwash System for cleaner glass
- Massive ceramic glass door panel for a spectacular real fire experience
- Front and side loading doors allow longer logs to be loaded
- Top or Rear flue outlet
- Retains heat long after the fire has expired
- Ideal for heating larger rooms
- External Air Supply

GASCON 11.3KW & GASCON 13.9KW

With its substantial 11.3kW output, the Gascon is the perfect wood-burning stove for heating larger rooms whilst enjoying a truly inspiring wood stove experience. Available in either double door with bards or plain door, the Gascon can be easily styled to suit your home. Equipped with a range of advanced features including a powerful airwash system to help keep the glass clear of unsightly deposits and a tertiary baffle, the Gascon is designed to keep you cosily warm during the harshest winters, whilst still being kind to the environment. The Gascon is also available with a 13.9kW Output.

FEATURES

- All Cast Iron construction for maximum heat transfer
- Wood-Burning Stove
- Powerful Airwash System for cleaner glass
- Choice of door styles and enamel finishes to create the perfect stove for your installation
- Tertiary Baffle for Cleaner Emissions - Helping to Protect the Environment
- Retains heat long after the fire has expired
- Top or Rear flue outlet

SEBA

SEBA 8KW & FRIDA 8KW

Franco Belge are known for their stylish, eye-catching stoves and the Seba & Frida stoves are no exception! With a tall, sleek design, long viewing window and log-store, the Seba & Frida offer a contemporary twist on the traditional Franco Belge stove yet still offer the high-quality manufacturing and modern technical specification synonymous with the Franco brand. With an 8kW heat output and 80% efficiency the Seba & Frida are capable of efficiently heating any size of room, while the modern design is sure to provide a statement piece for any style of room.

FRIDA

UBINAS CLASSIC 8, 12 & 13KW

With its ultramodern style and 13kW output, the Ubinas Classic not only significantly increases the level of heat in your room but can provide a centrepiece to converge around. The Classic will provide a welcoming atmosphere for you and your family to create wonderful memories. The wide glass affords a breath-taking, panoramic view of your fire. The Classic gives you the best of both worlds as it combines both the latest technology with a modern design. This guarantees the wood will burn efficiently and that the heat will remain long after your fire has died out. The polished and elegant design will harmonize beautifully with all room decors. The Ubinas Classic is also available in 8kW & 12kW.

FEATURES

- Large ceramic glass door for superb views of the fire
- Efficient Air-wash System to keep the glass free from deposits
- Ideal for heating medium to large rooms
- Available in 8, 12 & 13kW
- Sleek contemporary design
- All Internals are made of Cast Iron
- Beautiful glass door and frame
- Available in 4 sided frames

UBINAS VISION 8, 12 & 13KW

With its considerable 13kW output, the Ubinas Vision offers a powerful heating performance and a spectacular point of focus in any room. The large window allows for the full effect of the fire to show through. The sleek contemporary design emits radiant heat evenly and efficiently. The fuel costs are drastically reduced due to the greater level of heat being delivered into your room and thus less need to refuel the stove. The discreetly hidden hinges and clean smooth finish of the Ubinas Vision will seamlessly integrate with, as well as compliment, any style of room. The Ubinas Vision is also available in 8kW & 12kW.

FEATURES

- Large ceramic glass door for superb views of the fire
- Efficient Air-wash System to keep the glass free from deposits
- Ideal for heating medium to large rooms
- Available in 8, 12 & 13kW
- Sleek contemporary design
- All Internals are made of Cast Iron
- Beautiful glass door and frame
- Available in 4 sided frames

FRANCO BELGE

Quality & Tradition since 1926

Why buy Franco Belge :

With over 90 years experience in designing and manufacturing the world's finest wood burning cast iron stoves, Franco Belge are renowned for their intricate cast iron work, rugged reliability and beautiful finishes. All Franco Belge stoves feature powerful air wash systems to provide cleaner burning and help keep the glass crystal clear which offers the largest possible view of the flames. Each Franco Belge stove is constructed from top grade cast iron for a lifetime of dependable service.

Exceptional efficiency

Benefitting from primary, secondary and tertiary air, each stove from Franco Belge gives you the control needed for perfect regulation of the stoves output whilst always ensuring maximum efficiency.

Air wash system

Each Franco Belge stove features a clever air wash system, ensuring maximum combustion of the fuel and perfectly clear glass.

Top grade cast iron

Holds up to the highest temperatures, retaining heat long after the fire has expired.
